Lara is a 20-year-old singer-songwriter from Luxembourg, English being her mother tongue. Inspired by the Beatles, she began writing songs when she was 11. At the age of 13 she started participating in local songwriting competitions and then in music festivals such as the Screaming Fields Festival. In 2022 she performed the song "City and its People" which she wrote exclusively for the Opening concert of Esch 2022 European Capital of Culture at the Rockhal. In 2023, her song "The Sculptor" was a semi-finalist in the singer-songwriter category of the UK Songwriting Contest in London. Her debut album "The Sculptor", which contains songs she wrote between the ages 14 and 18, was released on 26 April 2024.

Lara writes from her own experience and loves to experiment with interesting chord progressions. Her music has elements of pop, jazz and classical music.

Recently she launched two musical projects: Lara Grogan & Band as well as Lara Grogan & Cello and performs live with them.

## **“The Sculptor” - Debut Album Release**

My debut album is finally out in the world. “The Sculptor” is very personal to me - it contains songs I wrote between the ages of 14 and 18. As a teenager, I used songwriting to express my thoughts and feelings, so these songs are like little diary entries of what I was thinking about at certain points in time.

## “3 AM” - Music Video Release

“3 AM” is the last single and music video to be released before the album. It’s a song I wrote when I was 16. The lyrics literally came to me at 3 in the morning because I couldn’t sleep, which is when my thoughts start running wild. I was thinking about a person I’d lost contact with, things I was afraid to say out loud but wanted to tell them.

In many ways, “3 AM” is like a diary entry from that specific night. After I wrote the lyrics down on a piece of paper, I felt like I had gotten my troubles and thoughts off my chest and I could go to sleep again.

## “City and its People” live at Philharmonie du Luxembourg

For the 50th anniversary of the Brass Band du Conservatoire Esch - sur - Alzette, conductor Claude Schlim invited me to perform my song “City and it’s People” with them at the Philharmonie Luxembourg. This was a dream come true, as I had been to many concerts at the Philharmonie and now got to sing there myself.

## Lara Grogan & Band live at Café Saga

Café Saga was our first gig as a four-piece Band. We played some songs from the upcoming album as well as some very new ones I've been working on recently. It's always great getting a live reaction to new material and the audience was really great. Thank you to everyone who joined us!

## “The Sculptor” - Music Video Release

“The Sculptor” was inspired by the book “Vom Ende der Einsamkeit” (ENG: “The End of Loneliness”) by Benedict Wells. I wrote this song about how life shapes us into the person we are today, the way a sculptor shapes a sculpture made of clay.

The music video was made with a team of very talented young people from Luxembourg and I feel grateful to have had the opportunity to work with them.
